

Dear Sir/Madam,

We are pleased to announce a training cum workshop on DNA Barcoding for research scholars and interested faculty members on 14th & 15th March, 2018. DNA Barcoding is a taxonomic method that uses a short genetic marker in an organism's DNA to understand its species identity. The various methods of isolation, identification and amplification of sequences will be dealt in the workshop. We cordially invite all the interested research scholars and the faculty members to attend this workshop.
