OLD STUDENTS' ASSOCIATION

Gather on the most anticipated seminar of this year to gain knowledge and insights of various aspects in Statistics and Probability exclusively from the experts!

ABOUT THE INSTITUTION

St. Thomas College(Autonomous), Thrissur is one of the leading academic institutions in the higher education sector of Kerala since 1919. It has a long and proud tradition of excellence in training, teaching and research in many academic disciplines of Science, Arts, Commerce and Humanities. Post graduate Department of Statistics and Research Centre, St. Thomas College(Autonomous), Thrissur provides robust computational support to meet the needs of students and researchers. The Degree Course in B.A. Statistics was started in the year 1955 under the Dept. of Mathematics and Statistics affiliated to the University of Madras. In the year 1958 the B.A. Course was converted to three year B.Sc. course in Statistics under the University of Kerala.

The Department of Statistics was established in the year 1984 and the M.Sc. course in Statistics commenced in the same year with Operations Research, Numerical Mathematics and Computer Programming as optional subjects. Department was elevated as Research Centre of the Calicut university in the year 2013. The Department offers Certificate course in SPSS for UG and Certificate course in Statistical Data Analysis for PG students. In 2018, UGC has sanctioned B.Voc Data Science Course to the college.

ABOUT THE SEMINAR

Department of Statistics, St. Thomas College(Autonomous), Thrissur, is organizing a two day "National Seminar on recent developments and Applications in Statistics and Probability" during February 14-15, 2024. The aim of the Seminar is to bring together Research scholars from different parts of the Country for exchange of ideas and latest developments through plenary lectures, invited talks and paper presentations. This two day National Seminar intended to provide an opportunity to the young Statisticians and researchers for interactions with eminent Mathematicians and Statisticians regarding the latest development in various fields of Statistics. Expected topics to be covered in this Seminar are Distribution theory, Special functions and fractional calculus, Multivariate analysis, Reliability and Survival analysis, Quality control, Bayesian inference, Population studies, Official statistics, Time series and Stochastic modelling.
